A contact conversation between Ptaah and Billy:

UN – an organisation of ridiculousness

Billy ... outside of them everything, or very much, is unfriendly and loveless. When I think of the former Yugoslavia, it makes me feel terribly sick. This is also in the respect that the responsible ones of this world do not take the necessary measures to finally put an efficacious end to the misery there. I am thinking specifically of the UN and the loudmouthed Americans, as well as the British and Germans, the French and Italians, and so forth, who stand on the sidelines and watch the slaughter and physical and psychological Gewalt (*"There is no English word that conveys the true meaning of the German word 'Gewalt'. 'Gewalt' is the brutal execution of elemental might and force, but it is far above all might and all force. 'Gewalt' exists in different and relative forms, one example being a 'gewaltttätige Gesinnung' – expression from the character, personality, thoughts, feelings and emotions that shows the inclination to act with Gewalt. When human beings possess or carry out acts of Gewalt and it is not based in logic, then this usually involves violence, brutality, degradation and is terribly destructive."* [Meier, BEA 2010, *The Goblet of Truth*, page XIII, footnote]) and other felonious acts that are taking place there. Our worldwide action with your explanations were to no avail at all.

This is what we have also observed, and it is really the case that all those responsible ones of Earth only have big mouths. But there are also many irresponsible ones among the respective populations who are in conformity with the lax and unhumane, felonious machinations of the inaction of their rulers, wherethrough all misery is even increased. Instead of, for example, the UN troops correctly regulating the respective acts of war as troops fighting for peace according to Henoch's system, in order to end them in a short time, they act according to their superiors – who are of low intelligentum and irresponsible – and the associated countries, as useless situation observers and ineffective peace angels, who are indeed equipped with weapons and yet have to allow themselves to be killed defencelessly. This makes the UN and all its troops nothing more and nothing less than a senseless organisation of ridiculousness devouring thousands of millions of dollars, which in addition contributes to the fact that rivalling and mutually slaughtering parties can continue to murder and commit felonies of Gewalt under the protection of the UN. NATO is also part of this, as are the individual regular armies of the various countries, from which the necessary troops fighting for peace could be created and formed according to Henoch's system through which all wars and revolutions on Earth could actually be ended and a lasting peace established – a state that would soon be equal to paradise if the population of the entire humankind of Earth were then reduced by the stopping of births and by birth control, and so forth.

Billy In this regard, we also spread our text 'Fight Against Overpopulation'. Many irrational and imperious ones, as well as egoists, and so forth, are against it.

Ptaah

This is always the case when rational reasons are given, because they always come up against resistance from all the irrational and irresponsible ones.

Billy For the irresponsible and the irrational ones, everything that is rational is considered to be revolutionary. In this case, however, it is considered to be something revolutionary that might be harmful to them; this is what they believe, although the truth is just the opposite.

Ptaah

That is right.
